SWU CURRICULUM

Our Technical curriculum creates a relevant, coherent, and engaging environment for all players, parents, and coaches. Academy provides quantifiable standards for measuring coach and player performance and promotes the four pillars of player growth: **technical, tactical, physical, and psychological.**

SWU PLAYER DEVELOPMENT

Player habits go hand-in-hand with player development. The player habits are a guide to align our player development through club identity and style of play with our training and coaching philosophies. We monitor progressions through a report card system.

SWU COACH EDUCATION AND DEVELOPMENT

SWU provides an environment for all coaches to develop and continue their learning and education. We will be providing coaches with the choice to complete their mandatory NCCP courses through our club for the Community Stream and continue to support our coaches with the goal of increasing the amount of C License certified coaches within our club. SWU is also committed to supporting our coaches financially in the performance stream with finances for those who successfully complete the courses.

Coaching Areas are split into modules.
Each module has:

- Delivery Method
- Specific Learning Outcomes
- Session Overviews
- Individual Coach Assessment

SPORTS SCIENCE PROGRAM

Our latest core program addition is Sports Science. This program covers a large area of Athlete Development and is broken into **2 specific areas**:

PERFORMANCE / PSYCHOLOGY:

Our athletes attend multiple sessions 'off-the-field' to explore the mental side of the game and is given multiple tools to utilize personally and within their team dynamic.

Some of the main areas covered in this program are:

- Goal Productivity
- Preparation & Post-Performance Review
- SDT (Self-Determination Theory)
- Imagery / Visualization & Rehearsal
- Emotional Control / Relaxation
- Confidence, Concentration, Comfort Zones & Focus Shifting
- Personality & Behavioral Tendencies
- Importance of Culture + Environmental Influences, Motivation + Conflict
- Team Importance, Working with others, Acceptance & many more
- The coaching staff of the teams enrolled in this program also can personalize their sessions based on the current needs of their teams.

ATHLETIC PERFORMANCE / SAQ:

Speed, Agility & Quickness are vital for the athletes in our program. This area is designed to work on the core mechanics, technique, and precision of all areas that are required for soccer.

The fundamental topics that are covered here are:

- Mechanical movement (specific understanding of different ways to use your body for speed)
- Speed & Quick change of direction
- Balance
- Core Lower body strength
- Reflexive Reactions
- Core Bodywork
- Injury Prevention
- Increasing Endurance & Power

PHILOSOPHY AND STYLE OF PLAY

South West United's primary focus is to develop technically and tactically, sound players capable of making confident decisions within the flow of the game. We expect players to be competitive in matches; however, winning is a secondary goal at our youngest age groups as we adhere to the Canadian Soccer Association's Long-Term Player Development (LTPD) training model.

Through our structured and progressive curriculum, players learn how to solve soccer challenges creatively and skillfully. From the beginning, SWU coaches emphasize both smart decision-making (tactical) and correct technique (technical) to gain confidence and improve execution in the game environment.

Starting at the earliest ages, players are introduced to our "possession" style of play. Possession refers to keeping control of the ball as a team for the purpose of finding and exploiting opportunities to attack forward whenever possible. Teams are expected to build attacks from the back; this means utilizing our goalkeeper and defenders to cycle the ball and switch the point of attack to find and exploit areas of the field where we hold numerical superiority. As the ball is moved

up the field and closer to our opponent's goal, we encourage players to show more creativity and take 1v1, 2v1, and 3v2 chances to generate scoring opportunities. When the ball is lost, we want players to instantly transition to a defensive mentality of organized shape with the goal of winning the ball back as soon as possible to limit counterattacks. In order to stay true to our style of play, coaches train players to execute our "possession" style of play in both practices and games.

Early on players will make costly mistakes early and often, especially as they learn how to build attacks from our goalkeeper and defenders. We do not want to discourage players who make mistakes; we will instead encourage them to learn from these mistakes. Creativity will be rewarded regardless of the outcome. Our younger teams will inevitably lose games to clubs that play a more direct and less skillful style of play, i.e. playing long balls forward and using speed and aggression to score. While the SWU route to playing a possession-oriented style of play may take longer to show results in the win-loss column, our teams will begin to execute consistently surpass these types of teams as they get older. These positive results will create more opportunities for our players.
